

Quantitative social scientist with 15+ years of experience in social science research, program evaluation, survey research, and applied statistics. Currently leading AI/ML Solutions Hub at Northeastern's Institute for Experiential AI. Proven track record managing \$5M+ research portfolios, conducting large-scale RCTs & quasi-experimental studies across 10+ countries, securing \$10M+ in funding, and building causal models to inform evidence-based decision-making for government and philanthropic clients. PhD from MIT with experience teaching statistics and publications in *Science*, *APSR*, *Social Science & Medicine* and other top journals.

SKILLS

Quantitative Research	Survey Research, Econometrics, Program Evaluation, Data Visualization, ML & LLMs
Thematic	Political Science, Political Psychology, Public Health, Survey Methods, Program Evaluation
Tools and Languages	R, Stata, Git, GitHub, $\LaTeX$, Quarto/Markdown, PowerBI, Tableau, Python & SQL (developing proficiency)
Leadership	Project Management, Fundraising, Institutional Partnering, Teaching & Facilitation, Strategic Planning

EDUCATION

Ph.D. in Political Science (Quantitative Methods subfield) , <i>Massachusetts Institute of Technology</i>	2019
<i>National Science Foundation Graduate Research Fellowship</i>	2014 — 2017
B.A. in Government & Economics (minor) (Magna Cum Laude), <i>Colby College</i>	2009

EXPERIENCE

Program Manager Sep 2025 — Present
Institute for Experiential AI, Northeastern University

- Manage the [AI Solutions Hub](#), a team of professional & student data scientists, ensuring smooth delivery of AI, ML, and data science services to clients in the banking, insurance, non-profit, health, and life sciences industries.
- Work with university faculty, staff and leadership to shape the AI Hub's mission, priorities, and administration.
- Lead business development, fundraising, and institutional partnering initiatives.

Technical Director Dec 2020 — March 2025
Social Impact

- Implemented quantitative and survey-based research studies to advance evidence-based decision-making at federal agencies, non-profits, local governments, and philanthropic organizations.
- Led SI's Data Science team, directing ML & AI based projects to generate actionable, evidence-to-policy insights.
- Mentored and provided quality assurance for junior researchers on survey methodology and quantitative analysis.
- Managed the delivery of more than \$10M of contracted research projects for USAID and other federal government clients.
- Led business development, fundraising, and institutional partnering initiatives; co-led successful proposals valued over \$30M.

Senior Research & Training Manager Jun 2019 — Nov 2020
Abdul Latif Jameel Poverty Action Lab at MIT (J-PAL)

- Led a team responsible for teaching a portfolio of [online and in-person courses](#) on randomized controlled trials & survey research.
- Oversaw a threefold increase in enrollment and spearheaded new educational partnerships.
- Conducted independent research involving large-scale field surveys and randomized controlled trials.
- Developed technical guides and [research resources](#) on survey & experimental research for internal & external audiences.

Ph.D. Student & Candidate Sep 2012 — Jun 2019
Massachusetts Institute of Technology, Department of Political Science Cambridge, MA

- Authored [dissertation on community policing](#) involving large-scale field experiment & surveys in Liberia. Published research on [psychosocial well-being](#) of war-affected communities.
- Secured more than \$300,000 in grant funding for collaborative research on [public health](#), [community policing](#), public opinion, misinformation, and [security sector reform](#).
- Taught [graduate & undergraduate](#) courses on probability & statistics, causal inference, and research design.
- Spearheaded international research collaborations as Graduate Research Fellow at the [MIT GovLab](#)

Project Associate & Research Assistant Sep 2009 — Aug 2012
Innovations for Poverty Action New York, NY & Liberia

- Led the implementation of several large-scale randomized controlled trial evaluations of ex-combatant support and reintegration programs.
- Hired, trained, and managed a 40-member data collection team.
- Conducted data analysis in Stata and R, producing publication-ready tables and figures.
- Managed relationships with diverse stakeholders: US-based economists at Yale, the Liberian government, local partner NGOs, and 300+ rural Liberian communities.
